

SAMPLE SCHEDULE: MEGAN

Megan is a 7th grade student who had been struggling with her grades at her previous school. She thrives in the Futures Academy environment because she can take her time to learn each concept in her own way. Megan also enjoys staying busy with activities and friends.

Start time and end time for the day can be customized to suit your student.

Instruction is scheduled according to your child's optimal learning times with built-in content reinforcement.

To provide additional support, tutoring is offered to help your child master specific subjects and disciplines.
